

Summer Sess I

LTEN 149

AIDS Pandemic & Queer Survival

Critically engage with a Broadway musical and play around a consequential time in history...

TUES/THURS 11AM-1:30PM

Applicable toward Gen. Ed for most programs!

Aids help 'too
THE multi-million dollar hunt for the cause of Aids may soon be over but the epidemic is likely to continue spreading at an ever-increasing rate for two years or more.
Barring a breakthrough in treatment, the recent discoveries by US and French scientists will have come too late to save the 2,000 surviving Aids victims and the 3,000 or more people in Eu-
Andrew Veitch discoveries pro
\$54 million for Aids next year.
Hundreds of UK uals are suffering Aids-related lymphadenopathy tently swollen lymph in the neck, arm, groin, accompanied by pers- led by Dr. Luc Montagnier, at oned
